

## Liberty Development Corporation's

## master plans

Thornhill City Centre and eko  
combine **luxury,**  
**location**  
and **urban flair**

Liberty Development has two leading-edge multi-phase master-planned communities currently being built in York Region, each offering a great selection of designs and choice locations, both with luxury appointments and each with a prestigious address.

### Thornhill City Centre

Located in the heart of Thornhill, just north of Centre Street on the west side of Bathurst, Thornhill City Centre has a remarkable variety of amenities all within a five-minute walk.

Situated in an area infused with popular retail shops, including Promenade Mall, movie theatres, pedestrian-friendly walkways and a number of entertainment options, Thornhill City Centre has proven to be just what condo buyers want.

The fourth building in this development is enjoying brisk sales, following the success of the first three buildings. In 2007 keep an eye out for the opening of the next phase — two buildings adjacent to a five-acre landscaped park. Add to this mature trees lining the south-west perimeter of the neighbourhood, and you have a community worth investing in.

The builder you choose when purchasing your condo is just as important as the location and the suite you select. It will not only be apparent in the quality, but will enhance the enjoyment of your new home if your builder has the all-around experience of knowing what people want, while knowing how to build outstanding communities.

Liberty Development Corporation's philosophy is straight forward — to create well-planned communities filled with finely-built condominium homes, combining leading edge suite features with quality time-tested building practices.

### eko

Liberty's eko development in Markham Centre is another master-planned community featuring, in its first phase, four highrise residential condominium buildings embracing the principles of magnificent architecture and successful community design.

These buildings form an integral part of Markham Centre, and are a creation of a network of inter-connected courtyards, providing a European-style pedestrian-focused neighbourhood. The development philosophy includes distinctly urban character — higher density

with strong streetscapes — complemented by manicured landscaping.

An abundance of amenities right at your doorstep makes eko an exciting community to live in. The villages of Markham and historic Unionville are just a short ride away, boasting quaint shops, charming restaurants, schools and the cultural vitality of The Markham Theatre, Barley Art Gallery and Markham Museum.

This phase is already under construction, enabling purchasers to make their home at eko in 2007. **CL**

### FOR MORE INFORMATION
